Super-Smart Shortcut

Can AI make your life even easier? Yes, it can! Creating an image from text prompts is easy, and does a great job. But there's something even better. You can upload a REFERENCE IMAGE for AI to use as a template. This guarantees that AI creates an image extremely close to exactly what you want. Let's go step by step:

Step 1 - Enter a text prompt

Write a simple text prompt describing the final image result you want. you can keep it simple here, because we are going to upload a Reference Image in the next step. Just a very basic description of the image you will upload is all you need.

Step 2 - Upload a Reference Image

This image can simply be free Clip Art from the Public Domain. Firefly wants you to use images you have the rights to, or images in the Public Domain. We want to make sure all the images in our digital product are safe for Commercial Use.

Step 3 - Further refine image with text prompts

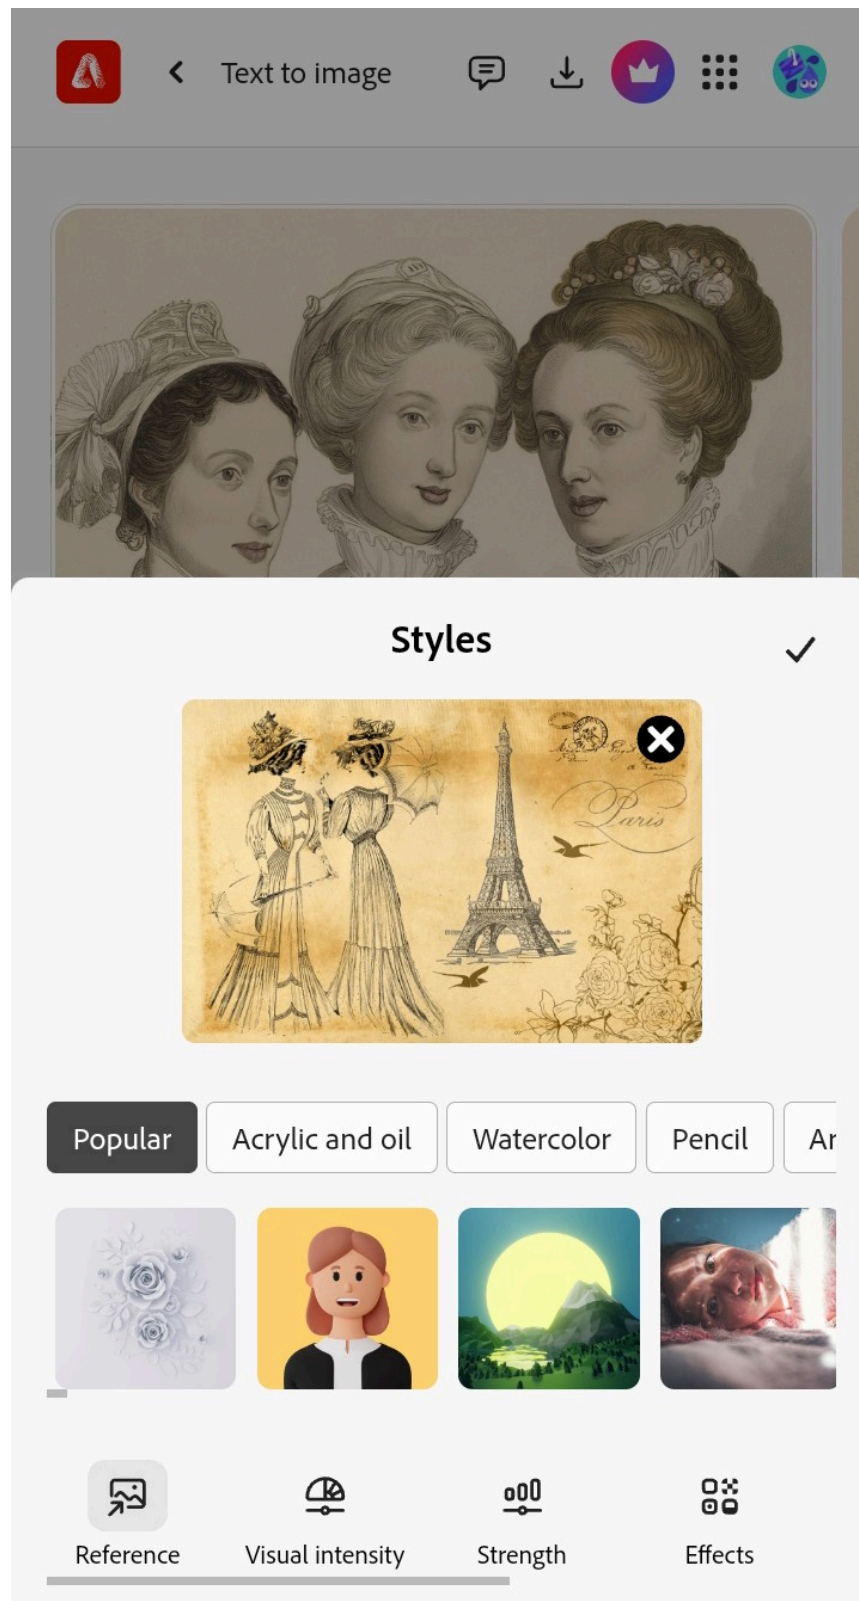

And you can tweak the image further with text prompts. With this method you can get the exact image you want, and it doesn't look artificial. This is very important. We really don't want images that look AI generated.

[Adobe Firefly](https://www.adobe.com/ai/firefly)

First, we enter a text prompt. Then press the round button next to your text prompt to generate the image. Next, click on the Styles button and upload your Reference Image.

Your reference image is an image from the Public Domain that is the closest to the final result that you actually want. We want to use actual human-generated art because we want the final result to be WARM and GENUINE.

You can see the Reference Image we uploaded just below the word *Styles*. Do you notice the difference between what AI generated for us, and the human-made Public Domain image? It's a pretty big difference! REMEMBER: We are going for warm and human. We definitely can't use a bunch of sterile-looking images.

Now we blend the AI image with the Reference Image. Do you see the checkmark to the right of our Reference Image? Click that checkmark, and then the click the round button next to your text prompt. This will give you the blend between these two images. Here's the result:

Wow! That's a pretty darn good image, and we haven't even gone to step three yet! Step three is refining this image with further text prompts. You notice the inclusion of the Eiffel Tower between the two ladies? Do you notice both of their faces look soft, maybe even kind? This is not a bad result at all.

With this feature, you can now recreate *any* product you wish. You are now a digital hunter! You simply search through bestsellers, and quickly make your own version to sell. Obviously, we don't copy or steal. We don't have to! AI makes something new every time. And we simply put our own touch, our own personality into the product.

With Firefly, *images for Commercial Use* just became easy. That's because Adobe uses their own image database, not images scraped from the Internet. To be extra safe, we are going to make sure that the vintage images we feed into Firefly are already ready for Commercial Use. This way we avoid any possible trouble.

Here's an example: You can add a flower frame to multiple different images. This flower frame gives the image the appearance of a journal page. It's beautiful, and it definitely fits in with the vintage theme. Simply feed this into Firefly as a Reference Image. Using a Reference Image always adds a bit more *punch* to your product. Here's the image:

[Roses Frame](#)

Or simply add the image of a butterfly. You can shrink the butterfly image down, and put it in the corner of the page. You can do this with multiple different pages. It makes your pages more interesting, and it also adds a splash of color to your creation. Even simpler, just tell Firefly to add a butterfly! Either way, you are making the image more unique:

[Vintage Butterflies](#)

Let me give you some more options: Here's a page that has an image and also some space to write. I recommend you use this as TWO images for two separate pages. One will be an image page, and one will be a writing page. This image also gives your product a sense of adventure and fun:

[Vintage Aviation Compass](#)

Here's an image with plenty of room to write. You'll notice that there's a very faded image in the background. This is done so that the vintage image becomes almost invisible, making the page useful for writing. To do this, you simply decrease the opacity of the layer the image is on:

[Old Vintage Paper](#)

Here's an image that looks like a biography of people's lives. There's scraps of people's writings, there's photos of women who lived in the past, there's birds, there's flowers. Somehow this page seems very alive, which is exactly what craft journals are about: Celebrating life.

[Scrapbooking Paper](#)

Here's an image with plenty of room to write, and it definitely has that vintage feel to it. It appears to be some type of business stationery. The left side of the page is written in French. This is perfect to give that feeling of travel and adventure that customers love:

Your choices are basically LIMITLESS. I need to show you just how many options you have when creating these products. The amount of high-quality artwork and illustrations that are in the Public Domain is overwhelming. Go to this link, and scroll down the page:

I think you get the general idea! You now have a limitless source of images to fill your digital products with. And these are QUALITY IMAGES. The images we create with Firefly look better than 90 percent of the products on Etsy. It's that much of a revolution in AI. There is absolutely nothing holding us back from creating multiple best-selling digital products.

Our strategy is simple: Find bestseller, understand why the customers love it, make our own version of that bestseller. Next, make sure the Product Title of what you create is warm, human, exciting, interesting. This is where most Etsy sellers drop the ball! Also make sure your Etsy sales page is filled with human connection. Reach out to your customers.

We also do some level of basic, free promotion. Just to prime the pump and get things started. But, just your Product Title and some basic SEO are extremely powerful in getting sales. By the way, Etsy SEO is far easier than you think. The problem is most Sellers overlook it! Here's a good video guide:

[Etsy SEO Simplified](#)

If you want to replace your day job without a shadow of a doubt, then you need to harness the power of Pinterest. Etsy and Pinterest were made for each other. And it's not even about money. You can do this without spending a dime. But, a small ad spend will speed things up. Here's a video from Dylan explaining how to absolutely conquer Etsy:

Extremely Important:

Make sure you are on my VIP Email List so that you can have access to the free AI Bestseller Launch Groups!

If you purchased this training, you are automatically on the VIP Email List. We are constantly forming more small Launch Groups to help you launch your content. That means ALL of your content, from micro-content to full-length books, all written by AI! **We are way more effective when we work as a group.**

We want to continue creating these tiny launch groups as many times as we can, and for as long as we can. These groups are TAILORED for you and your content. There is no cost for joining the group. We just really want to see some more publishing success stories!

I spend my own money advertising members books! That's why these groups are small. And that's why I don't launch new groups all the time. But I really want to see authors succeed. So I'm making an effort to start launching *even more* groups. Stay tuned!

So make sure you stay on my email list *because that's where all the announcements will take place*. If you have any doubts about not being on the list, email me and I will make sure to add you:

Insider Training:

The following training is PROVEN EFFECTIVE. This is the best of the best that I can possibly offer. It's taken me years to perfect these strategies. They absolutely work, and they keep on working. I'm the type of person who tests and then re-tests EVERYTHING. Effectiveness is a big deal with me!

[One-Page Royalty Streams](#)

This training is about EDITABLE one-page micro-content. These are simple one-pagers that the customer buys from you, and then edits them with free software. Because customers can CUSTOMIZE these one-pagers for their own lifestyle, they are willing to pay much more for them.

[Azon Royalty Generator](#)

This is a method to create a one-page book on Amazon and to get FREE PERMANENT advertising directly on Amazon's website. Yes, free ads for your book basically forever. The royalty stream from these tiny books can be quite substantial.

[Micro-Content Rapid Royalties](#)

This training is about a woman who did everything wrong when she created a simple 9-page book, but made over \$5,000 dollars from it. I'm not kidding when I tell you that the book is only NINE pages. This tiny book was a life changer for her.

[Micro-Series Bestseller Royalties](#)

This is about an author who writes little 10-page books very quickly and then connects them in a big series. He pretty much slaps these books together, but he dominates the bestseller lists and his royalties are off the chart. He also has a free method to get even more sales, and most authors don't know anything about this feature.

Godspeed to you and all your projects! Now is the time to launch your content because the demand has never been greater. There's so much opportunity out there for you. You just need to reach out and take it. If you need any further guidance or help, you can always contact me:
